DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney John Platt (Reg. No. 47,863) on September 26, 2005.

The application has been amended as follows: In Claim 7, line 7, inserting the phrase "to determine when said level achieves a predetermined threshold" in between "unit" and the semicolon ";".

In Claim 11, line 5, inserting the phrase "to determine when said amount of current achieves a predetermined threshold" in between "unit" and the semicolon ";".

In Claim 14, line 11, inserting ", provided within the transmitter unit," in between "circuit" and "coupled".

In Claim 16, line 1, inserting "power" between "a" and "level".

In Claim 16, line 4, inserting "component" between "current" and "into".

In Claim 16, lines 11 – 12, replacing "a significant reduction in the amount of increase of the direct current component as the input power is increased to the power amplifier" with "the direct current component approaching a plateau as the input power is increased."

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: Claims 1, 7, 11, 14, and 16 are allowable because the prior art of record fails to specifically teach or show, **a predetermined characteristic comprising the direct current component approaching a plateau as the input power is increased to the power amplifier.** Claims 2 – 4 and 6 depend on Claim 1, Claim 5 depends on Claim 4, Claims 8 – 10 depend on Claim 7, Claims 12 – 13 depends on Claim 11, and Claim 15 depends on Claim 14 therefore examiner gives same reason as set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raymond S. Dean whose telephone number is 571-272-7877. The examiner can normally be reached on 6:00-2:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nay A. Maung can be reached on 571-272-7882. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
